D. OTHER (Specify type of modification and authority)									
E. IMPORTANT: Contractor [] is not [] is required to sign this document and return two (2) copies to the issuing office. 14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)									
A. The following questions regarding the solicitation have been asked:									
1. QUESTION: The RFP states in section C.1 BACKGROUND that FAS is made up of several systems OED, OGF, FES, FCC, FM, PORTS, Web DPA, FES-02 and RM, however the training/documentation requirement seems to exclude FES, FCC, and FM. Section C.3.1.1 does not mention a requirement for FES, FCC nor FM training/documentation, is this correct?									
ANSWER: Yes, it is correct. Paragraph C.1 is the background of the entire FAS to provide a basis of understanding i.e. FAS is a portfolio of applications and the applications are both commercial off the shelf products and locally develop software. The solicitation concerns the Enterprise Level training and documentation									
effort. The Fuels Control Center (FCC)/Fuels Manager (FM) applications are a Base Level training and									
Except as provided herein, all terms and conditi 15A. PRINT/TYPE NAME OF CONTRACTO		as heretofore changed, remains unchanged and in full force and effect. ME OF CONTRACTING OFFICER

documentation efforts. The exception to this discussion is the FAS Enterprise Server (FES), although an Enterprise Level application, it has been integrated into the FCC/FM documentation and training. This effort is provided and maintained by E+H in Atlanta under the Base Level support contract.

2. QUESTION: If FES training/documentation is not part of this solicitation, is it up to the contractor to determine how to train/document FES02 and FESPORTS without training/documentation for FES? Or, is it assumed that if the contractor is doing training/documentation on FES02 and FESPORTS that the contractor is doing FES training/documentation?

ANSWER: Yes, the first assumption is correct. FES02 and FES PORTS are Enterprise Level applications and are covered under this solicitation for training and documentation. Both FES02 and FES PORTS are standalone applications that feed information to the FES and other Enterprise Level applications. As discussed above FES is trained and documented by E+H under a separate contract.

3. QUESTION: In Section C.1 BACKGROUND it states "These services are currently provided by contract", can you state who is the incumbent?

ANSWER: The incumbent is Petroleum Management Consultants, Inc. 8296 Lindside Way
Springfield VA 22153-3520

4. QUESTION: Does the contractor need to provide a training facility or will government provided facilities be provided?

ANSWER: The Government furnished equipment and supplies include but not limited to the electricity, water, telephones, facsimile machines, copier machines, file cabinets, both the training facility and a faculty area equipped with personal computer workstations, access to the Cafeteria and two snack bars within the building, and free satellite parking with free shuttle-bus from the parking area to the DLA/HQ Complex in which the Defense Energy Support Center is located in.

B. Offeror is required to completing blocks 8, 15a, 15b, and 15c and returning two (2) copies of the amendment to the issuing office in block 6. Failure of your acknowledgment to be received at the place designated for the receipt of offers prior to the hour and date specified may result in rejection of your offer.
